Profile

An avid computer science student with passion for building aesthetically pleasing and high functioning UI interfaces that satisfy the user by using modern frameworks and design principles. Proactive and quick to learn. A full-stack web development enthusiast. A fun and extroverted teammate.

Education

2021 Kathmandu	Secondary Education Examination(SEE) <i>Whiz Kids International School</i> GPA - 3.95
2021 – 2023 Kathmandu	Higher Secondary Examination or +2 (Science) <i>GoldenGate Secondary School</i> GPA - 3.22
2024 – Present Kathmandu	Bachelor of Science in Computer Science and Information Technology (BSc. CSIT) <i>Texas International College</i>

Professional Experience

06/2025 – 11/2025 Anamnagar, KTM	Frontend Web Developer Intern (NextJS) <i>Uniseek Education Services</i> 🔗 As a Frontend Developer Intern, I developed a user-facing platform for standard test preparation, including PTE, SAT . I utilized Next.js, TypeScript, React , and Tailwind CSS to build a responsive and visually appealing interface, focusing on handling user input and seamlessly integrating with backend services for dynamic data display.

Projects

Aura Notes [🔗](#)

Student Planner web-app

Designed and deployed a full-stack academic tool featuring a smart scheduler, flashcards, and progress analytics. The application utilizes the **React.js** library for the UI, is powered by a **Node.js (Express.js) backend**, and relies on **PostgreSQL** for scalable data management. I gained experience integrating cutting-edge **AI functionality** into the core feature set by using the **Gemini API**.

Kritim Technologies [🔗](#)

A landing page

Developed a high-performance, visually engaging corporate landing page using **Next.js** for server-side rendering and **Framer Motion** for polished, interactive animations. Implemented advanced **SEO strategies** to maximize organic reach and ensure fast loading times.

RestroCore [🔗](#)

A restaurant management system

Developed RestroCore, a comprehensive Restaurant Management System (RMS) built using the MERN stack and **Next.js** for superior performance. Key features include a real-time Point-of-Sale (POS), dynamic menu management, secure role-based admin dashboards, and live order tracking.

Poke your Memory [↗](#)

A memory card game

A game built completely with ReactJS and uses an external RESTApi (PokeApi) for fetching data about pokemon.

Certificates

Responsive Web Design [↗](#)

Developer Certification from **freeCodeCamp** representing approximately 300 hours of coursework(HTML5, CSS3).

Javascript Certification

Certification from **Sololearn**, demonstrating foundational programming skills and an understanding of core JavaScript concepts.

React Developer Cerification

Validated proficiency in React.js fundamentals, including component architecture, state management, and event handling. Certification from **HackerRank**.
